# About Company

SFXT Power is an exciting place. The one good thing about entering into the forex market is that you can trade anytime as per your convenience.

The global Trading market is the largest market in the world as measured by the daily turnover with more than US\$5 trillion a day eclipsing the combined turnover of the world's stock and bond markets. The forex market measuring a propelling turnover is one of the many reasons why so many private investors and individual traders have entered the market. The investors have discovered several advantages many of which are not available in the other markets.

## What is Trading ?

Trading (in simple terms, currency) is also called the foreign exchange & Currency trading. It is a decentralized global market where all the world's currencies trade with each other. It is the largest liquid market in the world.

The liquidity (more buyers and sellers) and competitive pricing (the spread is very small between bid and ask price) available in this market are great. With the irregularity in the performance in other markets, the growth of forex trading, investing and management is in upward trajectory.

# Who We Are?

We at SFXT Power having worldwide level experienced team and our teams make expeditious income through trading and rotate this income cycle in the investment project which is the reason we are giving you a big opportunity of making More profit by investing in our reinvestment concept.

# What Is Cryptocurrency?

**A cryptocurrency is a digital currency, which is an alternative form of payment created using encryption algorithms. The use of encryption technologies means that cryptocurrencies function both as a currency and as a virtual accounting system. To use cryptocurrencies, you need a cryptocurrency wallet.**

**crypto is a digital currency designed to work as a medium of exchange through a computer network that is not reliant on any central authority, such as a government or bank, to uphold or maintain it.**

# What Is Forex Market

Trade The World's Largest And Most Liquid Markets

**According to the Bank for International Settlements (BIS), the preliminary global results from the 2022 Triennial Central Bank Survey of Foreign Exchange and OTC Derivatives Markets Activity show that trading in foreign exchange markets averaged US\$7.5 trillion per day in April 2022. This is up from US\$6.6 trillion in April 2019. Measured by value, foreign exchange swaps were traded more than any other instrument in April 2022, at US\$3.8 trillion per day, followed by spot trading at US\$2.1 trillion.**

A hand is shown pointing towards a digital interface with a teal and purple geometric overlay. The background is dark with a hexagonal pattern and glowing points. The hand is positioned on the left side of the image, pointing towards the right. The overlay consists of several overlapping diagonal bands in shades of teal and purple.

## World Wide Community?

The starting point for every journey is knowledge. If you have the knowledge about the path on which you have to travel then the journey is going to be easier and more successful. We at SFXT Power would emphasize that when you have registered yourself. Please read the plan and understand the opportunity which lies in front of you to fulfill your dreams. The plan has been designed to be an equal opportunity for all those who get associated with SFXT Power. These incomes are further enhanced by combining the down line's performances so that it is always beneficial to create more leaders in your group. As the down line becomes successful you become even more successful.

# Who We Are?

What does "decentralized" mean? What are the advantages and what are the benefits?

Decentralized marketing is created with an automated contract that offers you maximum security and sustainability. A smart contract is an automatic execution algorithm. It exists within the Tron blockchain, one of the TOP cryptographic currency.

## SMART CONTRACT ?

Smart contracts, like cryptocurrencies, are decentralized. They work strictly according to the underlying program, without the possibility of subsequently changing the defined execution. The code that contains all the logic of the contract expiration is on the blockchain and all calculations are provided by millions of computers around the world. This ensures that there is no risk of hacking into the smart contract and stopping the project. The blockchain is an immutable record of transactions and information, which is cryptographically protected from any subsequent manipulation using thousands of independent computers worldwide

# Our Self

Decentralized marketing is created with an automated contract that offers you maximum security and sustainability.

## ➤ **ADVANTAGE**

It exists within the BSC blockchain, the number one cryptographic currency among those with which smart contracts can be created.

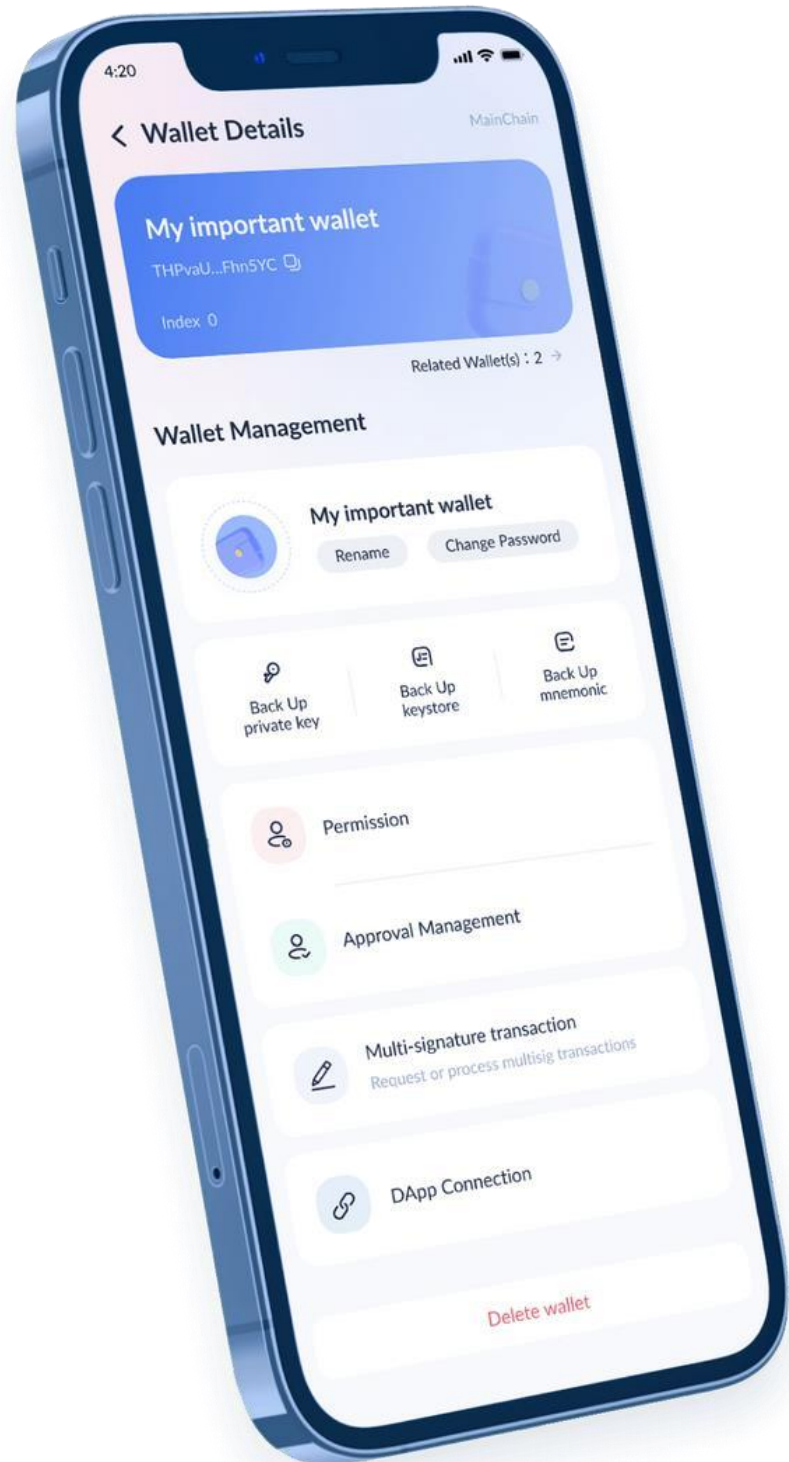

## ➤ **BENEFITS**

Crypto currencies are decentralized and they work strictly according to the underlying program, without the possibility of subsequently changing the defined execution. It ensures there is no risk of hacking into the smart contract and stopping the project.

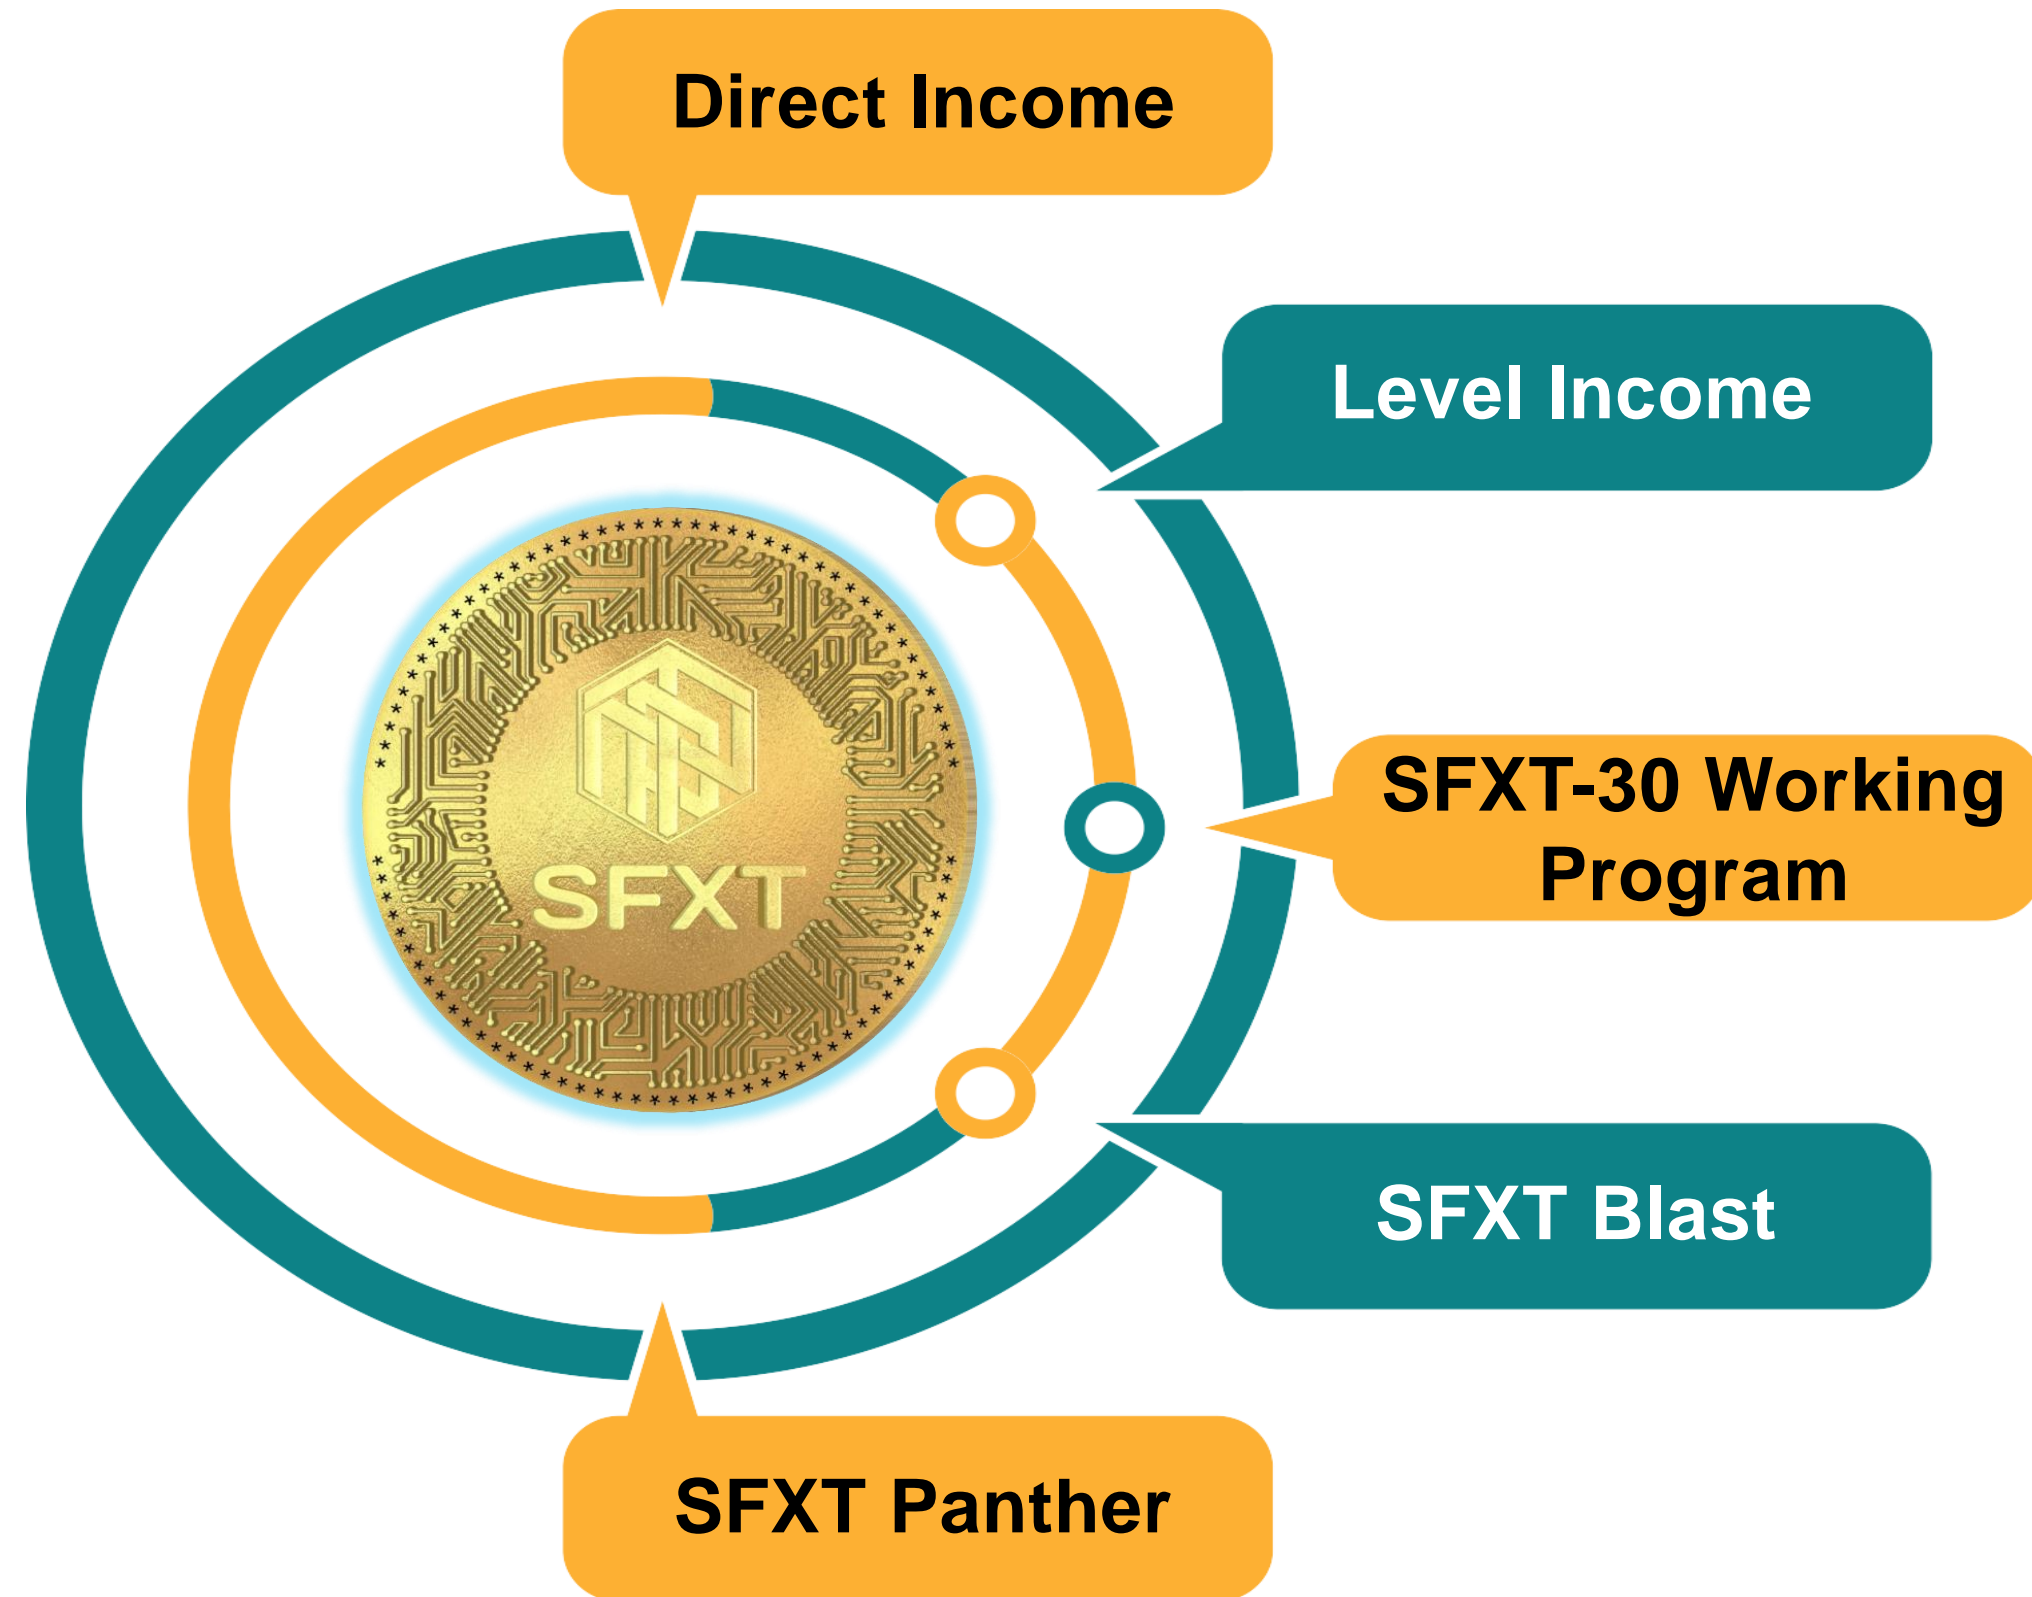

# Binance Blockchain

**BSC is a decentralized, open-source blockchain-based operating system with smart contract functionality, proof-of-stake principles as its consensus algorithm and a cryptocurrency native to the system, known as BINANCE (BSC).**
